DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

Claims 1 and 15 recite a transductor and method of forming the transductor comprising a bobbin having a first and second end formed of a conductive loaded resin based material, wherein the conductive loaded resin based material comprises micron conductor fibers, micron conductor powders, or a combination of the micron conductor fibers and the micron conductor powders homogenized within a base resin host, a conductive wire forming a plurality of turns wound around the bobbin, a first support member formed of a conductive loaded resin based material and attached to the first end of the bobbin, a second support member formed of a conductive loaded resin based material and attached to the second end of the bobbin, electrical connections to the first and second ends of the conductive wire, and electrical connections to the first support member and the second support member.

None of the prior arts shows or suggests this transductor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
